TAYLOR METAL, INC. PVDF Coating Technology Limited Warranty
Taylor Metal, Inc. (dba "Taylor Metal Products or TMP") warrants that our **PVDF** Coated Metal, when coated by 70% PVDF coating technology, and when purchased by TMP's customer ("Purchaser"), will retain its film integrity, color and chalk as set forth in the definitions below for the **Lifetime** of the original owner, provided the Coated Metal has been stored, transported, formed and installed in adherence to the exclusions and limitations portion of this limited warranty.

Definitions
For the purposes of this limited warranty, the following terms shall have the meanings set forth below:

1. "Film Integrity" means the absence of peeling, checking, chipping or cracking, except for such crazing or slight cracking as may occur on tightly roll-formed edges or brake bends at the time of forming Coated Metal.

2. "Color Change" means freedom from fade or change as warranted in ΔE units calculated in accordance with ASTM D2244, paragraph 6.2.2 CIEL*a*b*, 10° observer, specular included. Color change is measured on an exposed painted surface that has been cleaned of surface soils and chalk (per ASTM D3964) and then compared to corresponding values measured on the original or unexposed coated surface. Color will not change more than 5 Hunter ΔE units as determined by this method.

3. "Chalk or Oxidation" means a numerical rating as warranted when measured in accordance with the standard procedures specified in ASTM D4214. The Coated Metal will not chalk in excess of ASTM D-4214-98 method A D659 number 8 when properly maintained as described in this limited warranty.

4. "Non-conforming Coated Metal" means Coated Metal that has not retained its film integrity, color and chalk as set forth in this Warranty provided the Coated Metal has been stored, transported, formed and installed in adherence to the exclusions and limitations portion of this limited warranty as determined solely by TMP.

Registration
Within 45 days after installation of the Product has been completed, the Original Property Owner(s) must complete a Warranty Registration Card in full and mail it to TMP. Upon receipt, TMP will forward, by mail (or email), to the Owner(s) the Registered Warranty complete with registration number. The owner(s) should keep this Registered Warranty in a safe place for future reference. Failure to notify TMP of the registration shall relieve TMP of all obligations hereunder. In addition, the warranty does not and will not take effect until the project has been paid in full.

Warranty Period
This limited warranty applies to any **PVDF** Coated Metal shipped after May 1, 2026 and no previous warranty shall apply to such product.

Remedies
TMP's sole obligation in the event a Purchaser submits a valid claim for Non-conforming Coated Metal shall be limited exclusively to, in TMP's sole option, either (1) the cost of repairing or replacing Non-conforming Coated Metal, or (2) refund of the purchase price for any Non-conforming Coated Metal to the Purchaser. In the event TMP elects to satisfy its obligations under this limited warranty by paying the cost to repair Non-conforming Coated Metal, TMP must approve any recoating of the Coated Metal through submission of three (3) estimates that each includes the name of the coating products to be used, labor and material costs, and any other costs associated with the work for refinishing or replacing the Coated Metal. TMP reserves the right to approve or negotiate the contract for such recoating if the initial estimate is deemed unacceptable. In no event will the original applicable warranty period set forth be extended by a warranty claim or any other costs associated with the work for refinishing or replacing the Coated Metal. In the event of any subsequent failure of any recoated or replaced Coated Metal, Purchaser shall first make any claims against the supplier of those replacement materials. The warranty period for any refinished or replaced metal substrate shall be only for the remainder of the original Coated Metal's warranty period.
